SPICES EXPANA BENCHMARK PRICES (EBP)

PUBLICATION SCHEDULES

Expana assesses its Expana Benchmark Prices (EBP) from a variety of locations, and therefore the publication schedule (including assessment timestamps) varies depending on the schedule applied. The EBP assessments in the specifications guide represent the value of a given commodity timestamped against the below times of day:

EMEA: 16:00 UK time

Americas: 16:00 Eastern time

This information is annotated in this guide next to each EBP assessment under "Publication Schedule". For full details of bank holidays and early closes, please consult the Expana Publication Schedule webpage which can be found at <https://www.expanamarkets.com/our-methodology/publishing-schedule/>.

This guide is up-to-date as at the time of publication, and notes of any material changes Expana makes to the guide is recorded the Revision History section at the end of the document. Details of changes and clarifications of assessment specifications are communicated to the market and can be found on the Market Announcements webpage at <https://www.expanamarkets.com/our-methodology/market-announcements/>
